Dear Mr. Powell,

I am writing to thank you for the superb job your company did in the installation of the Montrac System for the AMRAMM factory. Raytheon's project timeline was extremely aggressive but Plastic Engineering completed the project ahead of schedule which supported the Program's Manufacturing Excellence Model (MEMs) schedule committed to our Customer.

Plastic Engineering's professionalism, expert knowledge and courteous attitude led to the Program's complete satisfaction and ability to recommend your company for future similar type projects. Once again, thank you for a job well done.

Sincerely,

Rich E. Goedel
