To Whom It May Concern:

It is my pleasure to tell you about our experiences with Plastic Engineering. They are truly a class act that gives their customers much more than they pay for. Their workmanship and attention to detail is incredible, but it's their service that makes it a pleasure to do business with them. From the top down, there hasn't been one person that hasn't gone above and beyond what we expected. Due to the nature of what we do, we get the privilege of working with some of the most well respected and talented companies in the industry and I am happy say that Plastic Engineering is at the top of the list. In this economy it is crucial that businesses watch the bottom line and the bottom line is that Plastic Engineering constantly exceeds their customer's expectations and does business the way it should be done.

Kindest Regards,

A handwritten signature in black ink, appearing to read "Rowdy L. Johnson", with a large, sweeping flourish at the end.
